Dear Sir,

Sub: Request for additional electives in undergraduate and post graduate programs.

We earnestly request the university to propose the introduction of additional elective courses in both undergraduate and post graduate programs. Thank you for understanding and cooperation in this matter and look forward to a favorable response.

Expanding the range of electives courses will provide students with the opportunity to explore diverse areas of interest and specialization, thereby enhancing their educational experience. We believe these electives will not only broaden our students' horizons but also make our graduates more competitive in the job market and better prepared for challenges of modern healthcare environments.

We are confident that the introduction of these electives will significantly benefit the students. Thank you for your attention to this request
