Event Report

A Certificate programme on **BASIC SKILLS ON AWARENESS OF LAB MAINTAINENCE**

Date: 26/10/2021 to 31/10/2021

Time:10:00 am to 1:00 pm

Maintaining a laboratory involves a combination of basic skills and awareness to ensure safety, efficiency, and accuracy in experiments and research. Basic skills and practices developed through this program are :

1) Cleaning and sanitation:

Regularly clean work surfaces, equipment, and storage areas using appropriate disinfectants. Develop a cleaning schedule and ensure all lab members adhere to it.

2) Equipment maintainence

Understand the proper operation and maintenance of laboratory equipment. Schedule regular inspections and calibrations as necessary. Keep records of maintenance activities.

3) safety protocols

Familiarize yourself with safety protocols and procedures relevant to your lab, including handling hazardous materials, emergency response plans, and proper waste disposal methods. Ensure all lab members are trained in safety procedures.

4) waste management

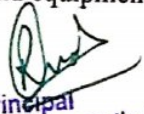

Dispose of waste materials according to regulations and guidelines. Separate different types of waste (e.g., biological, chemical, sharps) and dispose of them properly.

5) Documentation

Maintain accurate records of lab activities, including experiments, procedures, and safety inspections. Proper documentation is essential for traceability, reproducibility, and compliance with regulations

6) Organization:

Keep the lab space organized and free of clutter to minimize hazards and improve efficiency. Use labelling and storage systems to clearly identify materials and equipment

Event Report

FDP on "EVOLVING TEACHING AND RESEARCH PEDAGOGIES IN PHARMACEUTICAL SCIENCES"

Date:02/11/2020 to 06/11/2020

Time:10:00 am to 1:00 pm

- The Faculty Development Program (FDP) on Evolving Teaching and Research Pedagogies in Pharmaceutical Sciences brought together educators, researchers, and professionals from academia and industry to explore and discuss innovative approaches in teaching and research methodologies.
- The program aimed to equip participants with the latest tools and strategies to enhance pharmaceutical education and research.
- The Faculty Development Program on Evolving Teaching and Research Pedagogies in Pharmaceutical Sciences provided a comprehensive platform for educators and researchers to explore innovative approaches and exchange best practices in pharmaceutical education and research.
- By embracing evolving pedagogies and research methodologies, participants are better equipped to prepare the next generation of pharmaceutical scientists and drive impactful advancements in the field.
