Event Report

One-day seminar on Advancing Health Care and Novel Strategies for Pharmacy Practice in India

Organized By: St. Peter's Institute of Pharmaceutical Sciences

Date: 02-01-2020

Time: 10 am

No. of Students Participated: 80

No. of Faculty Participated: 5

St. Peter's Institute of Pharmaceutical Sciences hosted a dynamic one-day seminar aimed at exploring the advancements in healthcare and pioneering strategies for pharmacy practice within India. The event brought together esteemed professionals, researchers, academicians, and students in the field of pharmacy to exchange insights, knowledge, and experiences on 02-01-2020.

1. **Knowledge Enhancement:** Provide a platform for healthcare professionals, researchers, and students to enhance their understanding of the latest advancements in healthcare and pharmacy practice.
2. **Exploration of Novel Strategies:** Explore innovative strategies and approaches in pharmacy practice that can contribute to improving healthcare delivery and patient outcomes.
3. **Current Trends Analysis:** Analyse current trends and challenges in the Indian healthcare system and pharmacy practice landscape.
4. **Promotion of Research:** Encourage research initiatives in the field of pharmacy practice and healthcare, fostering a culture of innovation and discovery.

Seminar on Qualification and Validation

Organized By: St. Peter's Institute of Pharmaceutical Sciences

Date: 27-12-2019.

Time: 10 am

No. of Students Participated: 76

No. of Faculty Participated: 5

St. Peter's Institute of Pharmaceutical Sciences recently hosted a comprehensive seminar focusing on the critical aspects of qualification and validation within the pharmaceutical industry. The seminar provided an invaluable platform for students, researchers, and professionals alike to delve into the intricacies of ensuring product quality, safety, and efficacy through rigorous qualification and validation processes by Dr. Ashutosh Dikshit held on 27-12-2019.

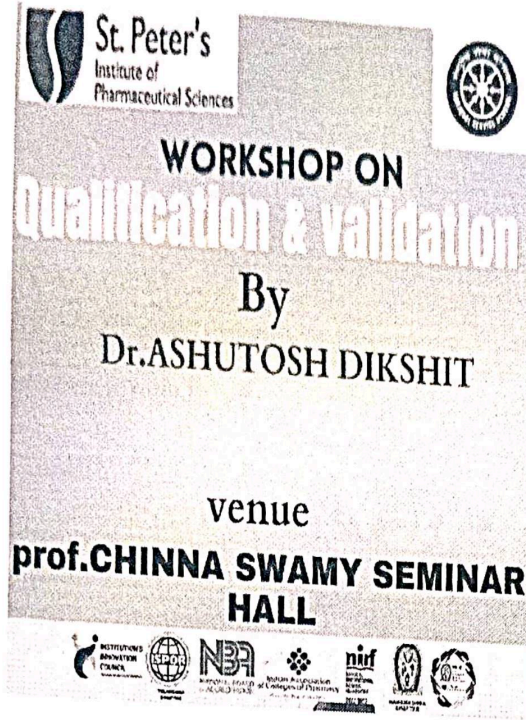

1. **Introduction to Qualification and Validation:** The seminar commenced with an overview of the fundamental concepts of qualification and validation, emphasizing their significance in pharmaceutical manufacturing, quality assurance, and regulatory compliance.
2. **Regulatory Guidelines and Compliance:** An in-depth discussion was held on the regulatory frameworks governing qualification and validation practices, including guidelines from regulatory bodies such as the FDA (Food and Drug Administration), EMA (European Medicines Agency), and WHO (World Health Organization).
3. **Qualification of Equipment and Facilities:** Participants gained insights into the qualification of various equipment and facilities used in pharmaceutical manufacturing, including HVAC systems, cleanrooms, manufacturing equipment, and analytical instruments.

Seminar on Stroke

Organized By: St. Peter's Institute of Pharmaceutical Sciences

Date: 29-10-2019

Time: 10 am

No. of Students Participated: 45

No. of Faculty Participated: 5

St. Peter's Institute of Pharmaceutical Sciences recently hosted a comprehensive seminar on stroke by Dr. Rama Krishna Telugu aiming to disseminate knowledge about the prevention, management, and treatment of this critical medical condition. Stroke, a leading cause of disability and mortality globally, demands greater awareness and understanding among healthcare professionals and the general public alike held on 29-10-2019. The seminar gathered experts from various fields, including neurology, pharmacology, and public health, to discuss the latest advancements and strategies in stroke prevention and treatment.

- 1. Raise Awareness:** Increase awareness and understanding among participants about the causes, risk factors, symptoms, and consequences of stroke.
- 2. Educate Participants:** Provide participants with up-to-date information on advancements in stroke prevention, treatment, and rehabilitation strategies.
- 3. Promote Early Detection:** Educate participants on the importance of recognizing the signs and symptoms of stroke and the significance of seeking immediate medical attention.
- 4. Highlight Pharmaceutical Interventions:** Showcase pharmaceutical innovations and therapies aimed at preventing, managing, and treating stroke, including drug therapies, rehabilitation techniques, and medical devices.
- 5. Discuss Research Findings:** Present and discuss recent research findings, breakthroughs, and developments in the field of stroke management and pharmaceutical interventions.

Session-Sharing importance of Networking and global connect work opportunities

Organized By: St. Peter's Institute of Pharmaceutical Sciences

Date: 19-11-2019.

Time: 10 am

No. of Students Participated: 56

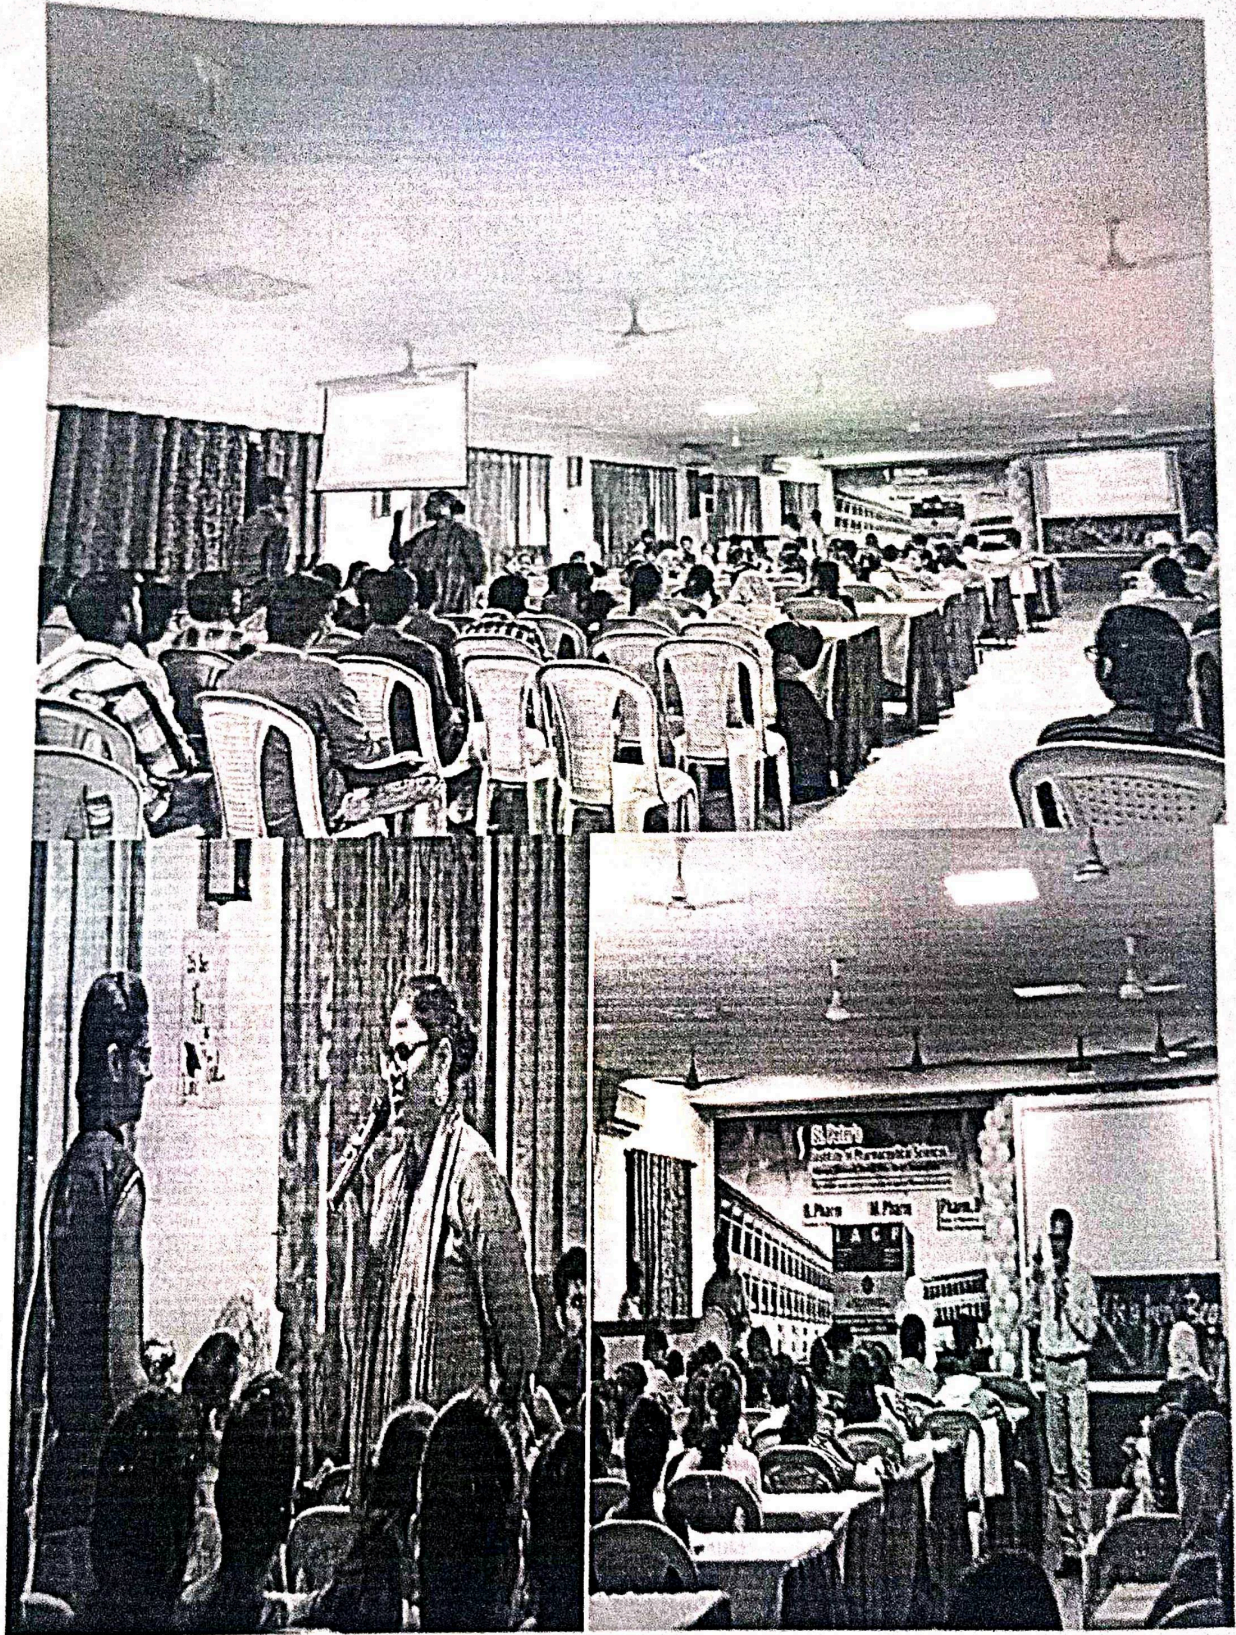

No. of Faculty Participated: 5

St. Peter's Institute of Pharmaceutical Sciences hosted an insightful session aimed at highlighting the crucial role of networking and global connections in the field of pharmaceutical sciences. This event provided a platform for students, faculty, and professionals to exchange ideas, experiences, and opportunities held on 19-11-2019.

1. **Educate Students:** To provide students with insights into the significance of networking and global connections in the pharmaceutical industry.
2. **Enhance Awareness:** Raise awareness among students about the role of networking in accessing global work opportunities and career advancement.
3. **Foster Professional Development:** Encourage students to develop their networking skills to expand professional contacts and opportunities both locally and internationally.
4. **Highlight Industry Trends:** Discuss current trends in the pharmaceutical sector, emphasizing the importance of global connectivity for staying updated and competitive.
5. **Encourage Collaboration:** Promote collaborative efforts among students to leverage networking platforms and connections for mutual growth and learning.

Session -DMF For Pharmaceuticals

Organized By: St. Peter's Institute of Pharmaceutical Sciences

Date: 11-09-2019

Time: 10 am

No. of Students Participated: 50

No. of Faculty Participated: 5

St. Peter's Institute of Pharmaceutical Sciences recently hosted an enlightening session focused on Drug Master File (DMF) in the pharmaceutical industry. Attended by students, faculty members, and professionals alike, the session aimed to delve into the nuances of DMF and its significance in pharmaceutical regulation and compliance held on 11-09-2019.

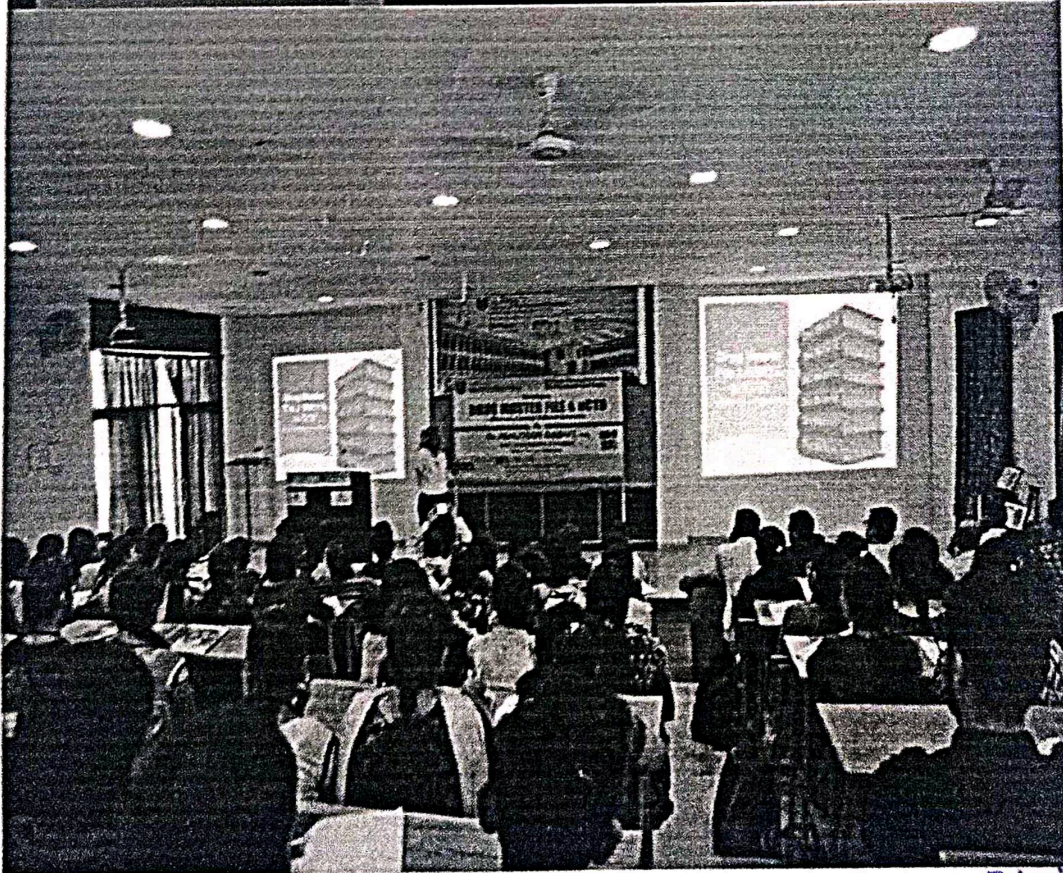

The session commenced with an introduction to DMF, highlighting its pivotal role in the regulatory landscape of pharmaceuticals. Emphasis was placed on understanding the purpose of DMF, its contents, and the submission process. Through interactive discussions and presentations, participants gained insights into the intricate details involved in preparing, submitting, and maintaining a DMF.

1. Understanding Drug Master File (DMF) concept: Participants should grasp the significance and purpose of DMF in the pharmaceutical industry, including its role in regulatory submissions and product development.
2. Regulatory requirements: Educating participants on the specific regulations and guidelines governing DMF submissions, such as those outlined by regulatory bodies like the FDA (Food and Drug Administration) or EMA (European Medicines Agency).
3. DMF preparation process: Detailing the steps involved in preparing a DMF, including documentation, data collection, formatting requirements, and submission procedures.

Event Report

Seminar on Data Integrity in Pharmaceuticals

Organized By: St. Peter's Institute of Pharmaceutical Sciences

Date: 28-08-2019

Time: 10 am

No. of Students Participated: 76

No. of Faculty Participated: 5

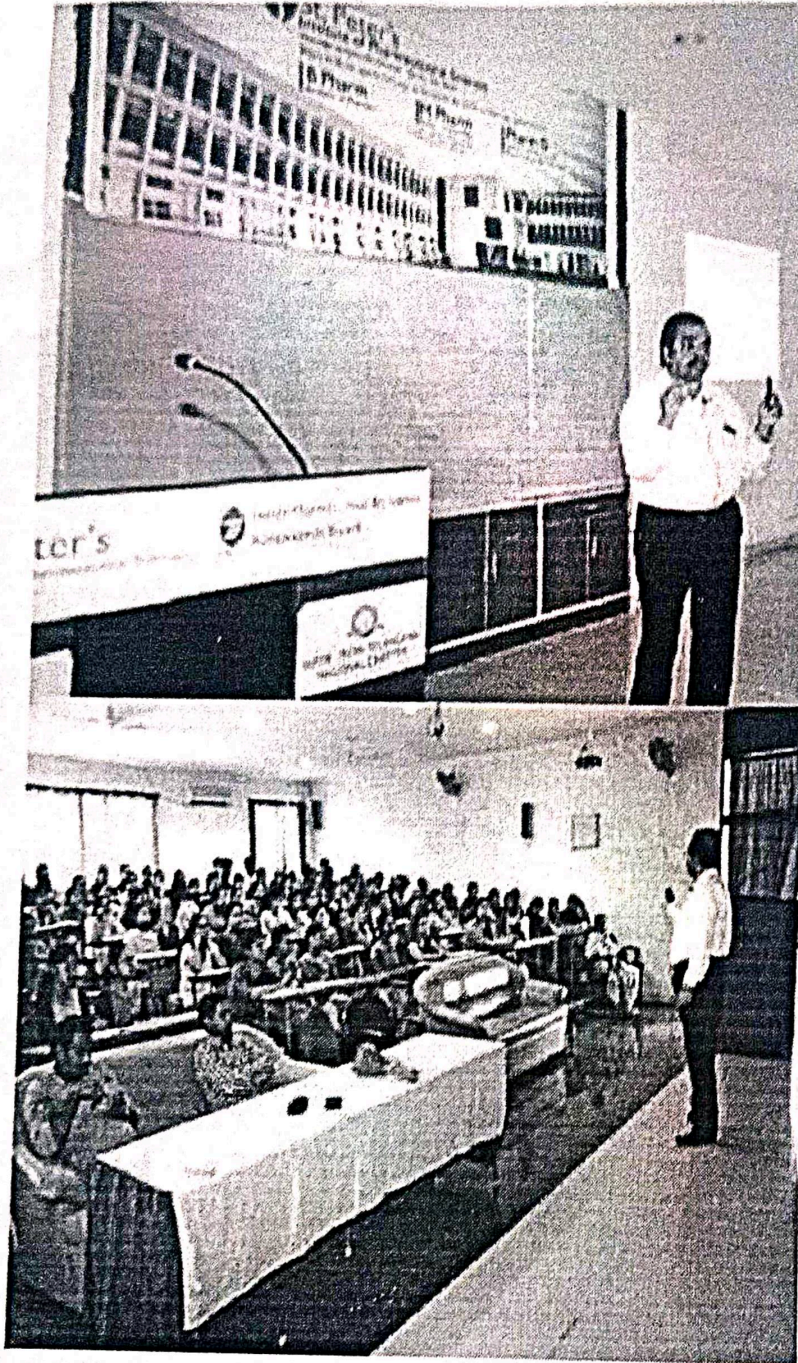

St. Peter's Institute of Pharmaceutical Sciences recently organized a Seminar on Data Integrity in Pharmaceuticals, aiming to shed light on the critical aspect of maintaining data integrity within the pharmaceutical industry. With the increasing reliance on data-driven decision-making and regulatory compliance, the seminar provided a platform for industry professionals, researchers, and students to delve into the intricacies of data integrity and its significance in pharmaceutical operations held on 28-08-2019.

1. **Understanding Regulatory Requirements:** To educate attendees about the regulatory guidelines and requirements related to data integrity in the pharmaceutical industry, including those set forth by regulatory bodies such as the FDA, EMA, MHRA, etc.
2. **Awareness of Importance:** To raise awareness among participants about the critical importance of data integrity in ensuring the safety, efficacy, and quality of pharmaceutical products.
3. **Risk Identification and Mitigation:** To discuss common risks and challenges associated with maintaining data integrity throughout the pharmaceutical manufacturing process and identify strategies for mitigating these risks.
