Webinar on Insoluble Drugs: Drug Delivery Challenges and Advances in Bioavailability Enhancement Techniques

Organized By: St. Peter's Institute of Pharmaceutical Sciences

Date: 17-08-2021.

Time: 10 am

No. of Students Participated: 90

No. of Faculty Participated: 10

St. Peter's Institute of Pharmaceutical Sciences proudly hosted a groundbreaking webinar focused on the intricate realm of insoluble drugs and the consequential challenges in drug delivery. Titled "Insoluble Drugs: Drug Delivery Challenges and Advances in Bioavailability Enhancement Techniques," the webinar garnered attention from esteemed professionals, scholars, and students alike within the pharmaceutical domain held on 17-08-2021.

The webinar delved into the critical issues surrounding insoluble drugs, a prevalent challenge in pharmaceutical formulation, which often impedes effective drug delivery. Renowned experts from the field shared their insights and experiences, offering valuable perspectives on overcoming these hurdles through innovative bioavailability enhancement techniques.

1. **Challenges in delivering insoluble drugs:** Identify and analyse the obstacles encountered in formulating and delivering insoluble drugs, including poor solubility, low permeability, and limited bioavailability.
2. **Understanding bioavailability enhancement:** Gain insights into the concept of bioavailability and its significance in pharmaceutical formulations. Explore the factors influencing bioavailability, particularly in the context of insoluble drugs.
3. **Exploring innovative delivery approaches:** Examine recent advancements and emerging trends in drug delivery technologies designed to overcome the challenges associated with insoluble drugs. This includes nanoparticle-based formulations, lipid-based delivery systems, nanocrystals, solid dispersion, and other novel approaches.

Webinar on Management of Non-Communicable Diseases-Clinical Pharmacist's Perspective

Organized By: St. Peter's Institute of Pharmaceutical Sciences

Date: 12-08-2021.

Time: 10 am

No. of Students Participated: 60

No. of Faculty Participated: 10

The webinar on the Management of Non-Communicable Diseases (NCDs) from a Clinical Pharmacist's Perspective, held at St. Peter's Institute of Pharmaceutical Sciences, was a comprehensive and insightful event aimed at equipping pharmacists with the necessary knowledge and skills to effectively contribute to the management of NCDs held on 12-08-2021.

Throughout the webinar, esteemed speakers and experts in the field of clinical pharmacy delved into various aspects of NCD management, offering valuable insights and practical guidance. The session commenced with an overview of the prevalence and impact of NCDs on public health, highlighting the growing burden of diseases such as cardiovascular conditions, diabetes, cancer, and respiratory ailments. Held on 12-08-2021.

1. The Webinar on the Management of Non-Communicable Diseases (NCDs) from a Clinical Pharmacist's Perspective held at St. Peter's Institute of Pharmaceutical Sciences provided a comprehensive insight into the role of pharmacists in addressing the challenges posed by NCDs.
2. Topics covered during the webinar likely included:
3. Introduction to Non-Communicable Diseases: Overview of common NCDs such as cardiovascular diseases, diabetes, cancer, and chronic respiratory diseases, emphasizing their increasing prevalence and impact on global health.
4. Pharmacist's Role in NCD Management: Discussion on the evolving role of pharmacists in managing NCDs, including their involvement in medication therapy management, patient education, adherence counseling, and lifestyle interventions.
5. Pharmacotherapy for NCDs: Review of pharmacological treatment options for various NCDs, including drug classes, mechanisms of action, dosage regimens, and potential adverse effects.

Webinar on Advances in Drug discovery and development

Organized By: St. Peter's Institute of Pharmaceutical Sciences

Date: 07-08-2021.

Time: 10 am

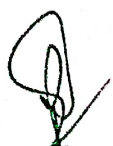

No. of Students Participated: 90

No. of Faculty Participated: 10

St. Peter's Institute of Pharmaceutical Sciences is proud to present a groundbreaking webinar on "Advances in Drug Discovery and Development." This webinar is designed to provide a comprehensive overview of the latest advancements, innovations, and methodologies in the field of drug discovery and development, with a focus on addressing the evolving challenges and opportunities in pharmaceutical research held on 07-08-2021.

- **Emerging Technologies in Drug Discovery:** Explore cutting-edge technologies such as artificial intelligence, machine learning, and high-throughput screening that are revolutionizing the drug discovery process, leading to the identification of novel drug targets and compounds.
- **Target Identification and Validation:** Discuss strategies for target identification and validation, highlighting the importance of understanding disease mechanisms and molecular pathways in drug discovery efforts.
- **Drug Design and Optimization:** Examine modern approaches to drug design and optimization, including computer-aided drug design, structure-based drug design, and fragment-based drug discovery, aimed at enhancing the efficacy, selectivity, and safety profiles of therapeutic agents.
- **Biopharmaceuticals and Biologics:** Explore the growing importance of biopharmaceuticals and biologics in drug discovery and development, including monoclonal antibodies, therapeutic proteins, and gene therapies, and their potential applications in treating a wide range of diseases.

Webinar on Clinical Pharmacokinetics-Practical and Technical Approaches

Organized By: St. Peter's Institute of Pharmaceutical Sciences

Date: 27-07-2021

Time: 10 am

No. of Students Participated: 80

No. of Faculty Participated: 10

St. Peter's Institute of Pharmaceutical Sciences is delighted to announce an insightful webinar focusing on Clinical Pharmacokinetics: Practical and Technical Approaches. Pharmacokinetics plays a crucial role in understanding the absorption, distribution, metabolism, and excretion (ADME) of drugs in the human body, thereby influencing their efficacy and safety profiles. This webinar will provide participants with a comprehensive understanding of pharmacokinetic principles and their practical applications in clinical settings held on 27-07-2021.

1. **Understanding Pharmacokinetics:** To provide participants with a comprehensive understanding of pharmacokinetics, including absorption, distribution, metabolism, and excretion (ADME) processes.
2. **Practical Application:** To explore practical applications of pharmacokinetic principles in clinical settings, including drug dosing, therapeutic drug monitoring, and individualized patient care.
3. **Technical Approaches:** To introduce participants to various technical approaches and methodologies used in pharmacokinetic studies, such as bioanalytical techniques, modelling and simulation, and data analysis.
4. **Clinical Relevance:** To highlight the clinical relevance of pharmacokinetic concepts in optimizing drug therapy, minimizing adverse effects, and improving patient outcomes.

National Webinar on "Medicinal Herbs - A Natural Restorative

Date: 23rd July, 2021

Elements in the Health Care System"

Time: 4.00PM IST

About the Institution: "Where Brilliant Minds converge to transform the future of Pharmaceutical Sciences", an unparalleled education experience and one of the top educational institutions in India. Established in the year 1995, St. Peter's Institute of Pharmaceutical Sciences is one of the earliest Pharmacy colleges in the combined states of Andhra Pradesh and Telangana, offers Bachelors, Masters and Pharm.D Programs in Pharmacy. Sponsored highest foreign student exchange programme with Poland, Portugal, Hungary, Netherlands, Spain and currently doing rotation programme with USA. Winner of highest Gold Medals, bagged more number of ranks in GATE, GPAT and NIPER. Contributed many Research Publications and consistently organizing training and workshops.

Who can attend: All B.Pharm, Pharm.D, M.Pharm, Pharm.D (P), Research Scholars, Faculty members, Industry delegates can attend the Webinar

About the Webinar: Medicinal Herbs are the main source of natural drugs which were recognized even from the ancient times. Though the chemical drugs are widely used in health care system, the importance of natural herbs is increasing day by day. This can be envisaged by the introduction of various herbal preparations in the form of Cosmetics, Nutraceuticals and Pharmaceuticals. Natural herbs pose minimal side effects and promising alternatives in treating many diseases. It is essential for every pharmacy professionals to know the importance of herbs as an element of health care system.

Webinar on "MEDICINAL HERBS - A NATURAL RESTORATIVE ELEMENTS IN THE HEALTHCARE SYSTEM"

Organized By: St. Peter's Institute of Pharmaceutical Sciences

Date: 23-07-2021.

Time: 10 am

No. of Students Participated: 50

No. of Faculty Participated: 10

The webinar on "MEDICINAL HERBS - A NATURAL RESTORATIVE ELEMENT IN THE HEALTHCARE SYSTEM" held at St. Peter's Institute of Pharmaceutical Sciences was a groundbreaking event that brought together experts, researchers, students, and healthcare professionals to delve into the profound potential of medicinal herbs in restoring health and wellness within the healthcare system held on 23-07-2021.

1. **Education and Awareness:** To educate participants about the potential benefits of medicinal herbs in restoring health and preventing diseases.
2. **Promotion of Herbal Medicine:** To promote the use of medicinal herbs as a natural and holistic approach to healthcare, emphasizing their role as restorative elements.
3. **Highlighting Research and Evidence:** To present scientific evidence and research findings supporting the efficacy and safety of medicinal herbs in various healthcare applications.
4. **Exploring Traditional Knowledge:** To explore traditional knowledge and practices related to medicinal herbs, emphasizing their historical significance and cultural relevance.
5. **Integration with Modern Medicine:** To discuss the integration of medicinal herbs into modern healthcare systems, including complementary and alternative medicine practices.
6. **Addressing Safety and Quality Concerns:** To address concerns related to the safety, quality, and standardization of medicinal herbs, including issues such as adulteration and proper sourcing.

Webinar on "Good Clinical Practices in Clinical Research"

Organized By: St. Peter's Institute of Pharmaceutical Sciences

Date: 12-07-2021

Time: 10 am

No. of Students Participated: 70

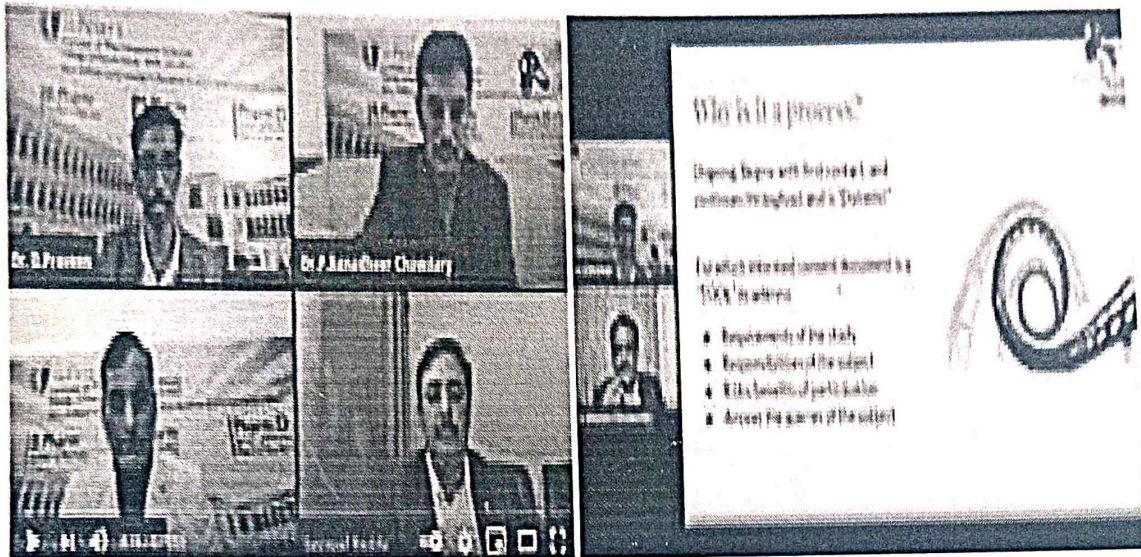

No. of Faculty Participated: 5

The webinar on "Good Clinical Practices in Clinical Research" held at St. Peter's Institute of Pharmaceutical Sciences aimed to provide a comprehensive understanding of the principles and implementation of good clinical practices (GCP) in the field of clinical research. The event catered to students, researchers, and professionals involved in clinical trials and pharmaceutical research, offering valuable insights and practical guidance on 12-07-2021.

1. **Understanding Good Clinical Practices (GCP):** To provide participants with a comprehensive understanding of the principles and guidelines of GCP in clinical research.
2. **Compliance and Regulatory Requirements:** To educate participants about the regulatory requirements and compliance standards associated with conducting clinical trials, ensuring adherence to ethical principles and legal regulations.
3. **Ensuring Patient Safety:** Emphasizing the importance of maintaining patient safety and welfare throughout the clinical trial process, including proper documentation, informed consent procedures, and adverse event reporting.
4. **Data Integrity and Quality Management:** Highlighting the significance of data integrity, accuracy, and quality management in clinical research, including data collection, management, and analysis techniques.
