In commemoration of **World Diabetes Day on 14-11-2020**, is pleased to announce a special webinar focused on raising awareness about diabetes and promoting healthier lifestyles.

Principal

Principal
St. Peter's Institute of Pharmaceutical Sciences
Vidyanagar, Hanamkonda,
WARANGAL-506 001 (T.S.)

TITLE OF THE EVENT: WORLD DIABETES DAY

DESCRIPTIONS:

1. Educating people about the causes, symptoms, complications, and management of diabetes.
2. Encouraging individuals to adopt healthy eating habits, engage in regular physical activity, and maintain a healthy weight to prevent type 2 diabetes and manage type 1 and gestational diabetes effectively.
3. Highlighting the need for equitable access to diabetes prevention, diagnosis, treatment, and care services, including medication, education, and support.

World Diabetes Day serves as a global platform to raise awareness about diabetes, its risk factors, prevention, management, and the importance of access to care. Various activities and events are organized worldwide, including health screenings, educational programs, media campaigns, conferences, and fundraising initiatives, to engage individuals, communities, healthcare professionals, policymakers, and organizations in the fight against diabetes.

World Diabetes Day aims to mobilize efforts to address the growing burden of diabetes, advocate for policies to improve prevention and care, promote healthier lifestyles, and support those affected by the disease. It plays a crucial role in fostering collaboration, raising funds for diabetes research, and promoting solidarity in the global fight against diabetes.

In observance of **World Energy Conservation Day on 14-12-20** our college is delighted to announce a special webinar focused on raising awareness about energy conservation and promoting sustainable energy practices.

Principal

**Principal
St. Peter's Institute of Pharmaceutical Sciences
Vidyanagar, Hanamkonda,
WARANGAL-506 001 (T.S.)**

TITLE OF THE EVENT: NATIONAL ENERGY CONSERVATION DAY

DESCRIPTIONS:

1. Inspiring people to adopt energy-saving habits such as turning off lights and appliances when not in use, using energy-efficient appliances, and reducing energy consumption in transportation.
2. Encouraging the adoption of energy-efficient appliances, equipment, and systems in homes, businesses, and industries to reduce energy consumption and greenhouse gas emissions.
3. Calling for the development and implementation of policies, regulations, and incentives to promote energy conservation and renewable energy sources.

National Energy Conservation Day is observed on December 14th every year in many countries, including India. It aims to raise awareness about the importance of conserving energy and promoting sustainable practices. The day encourages individuals, organizations, and governments to take actions to reduce energy consumption, mitigate climate change, and ensure energy security for future generations. Students of St Peter's had conserved energy by switching off the electronic gadgets for 1 hour at their residence.

TITLE OF THE EVENT: NATIONAL VOTERS DAY

DESCRIPTIONS:

1. Promoting voter participation, creating awareness about the importance of voting.
2. Educating citizens about the electoral process, and encouraging eligible voters, especially the youth, to register and exercise their right to vote.
3. Additionally, it aims to enhance the integrity and transparency of the electoral system.

National Voters' Day is celebrated annually on January 25th in India to mark the foundation day of the Election Commission of India, established in 1950. The day aims to promote voter participation, raise awareness about the importance of voting, and educate citizens about the electoral process. It serves as a reminder of the democratic rights and responsibilities of every citizen. Various events such as voter registration drives, awareness campaigns, seminars, and discussions are organized across the country to encourage eligible voters, especially the youth, to register and participate in the electoral process.

WARANGAL-506 001(T.S.)**

TITLE OF THE EVENT: WORLD CANCER DAY

DESCRIPTIONS:

1. Raising awareness about cancer, encouraging its prevention, detection, and treatment, and advocating for policies and actions to reduce the global burden of cancer.
2. It aims to promote education about risk factors, early detection methods, and available treatment options, as well as to dispel myths and misconceptions surrounding cancer.
3. Additionally, World Cancer Day seeks to mobilize individuals, communities, governments, and organizations worldwide to take action against cancer by promoting healthy lifestyles, supporting cancer patients and survivors, and advocating for equitable access to quality cancer care for all.

St Peter's conducted online poster presentation and students actively involved in participation. World Cancer Day, observed on February 4th every year, serves as a global platform to raise awareness about cancer prevention, detection, treatment, and care. It brings together individuals, communities, governments, and organizations worldwide to unite in the fight against cancer. The day aims to educate people about the importance of early detection, dispel myths and misconceptions about cancer, promote healthy lifestyle choices to reduce cancer risk, and advocate for equitable access to cancer treatment and care for all individuals regardless of their socio-economic status.

4th February
WORLD CANCER DAY-2020
Aims to save millions of preventable deaths each year
by raising awareness and education about cancer

Theme :
"I AM AND I WILL"

Risk Factors :

- Cigarette Smoking & Tobacco Use, Drinking Alcohol
- Poor Diet, Food Contaminants, Too much red or processed meat
- Lack of Physical Activity
- Excess Body Weight or Obesity
- Cancer-Causing Substances
- Chronic Inflammation
- Hormones, Immunosuppression, Reproductive Factors
- Infectious Agents (Viruses)
- Radiation, Sunlight, Pollution
- Certain Drugs and Medical Treatments
- Occupational Exposures
- Family History or Aging

Preventions :

- Avoid using Tobacco Products, Second Hand Smoke & Alcohol
- Maintain a Healthy Weight and Be Physically Active for at least 30 minutes Every Day
- Protect yourself from the sun & Be Safe from Pollutants
- Participate in Cancer Screening Tests according to recommended Guidelines
- Adopting Healthy Habits for Life & Eating a Healthy Diet
- Get Vaccinated against the Human Papillomavirus (HPV)
- Get Regular Medical Care
- Limit Consumption of Fast Foods High in Fat & Sugar Sweetened Drinks
- For Mothers : Breastfeed your Baby if possible
- Daily Practice of Rajayoga Meditation for Healthy Life

TITLE OF THE EVENT: WORLD EARTH DAY

DESCRIPTIONS:

1. World Earth Day aims to increase public awareness and understanding of environmental issues, including climate change, pollution, deforestation, habitat loss, and biodiversity decline. It seeks to educate individuals about the impacts of human activities on the planet and the urgent need for action to address environmental challenges.
2. World Earth Day encourages individuals to embrace their role as stewards of the Earth and to take responsibility for protecting and preserving the environment. It promotes a sense of environmental citizenship and encourages people to make sustainable choices in their daily lives, such as reducing waste, conserving energy, and supporting eco-friendly practices.
3. World Earth Day serves as a catalyst for collective action and civic engagement to address environmental issues. It inspires people to participate in environmental initiatives, campaigns, and projects aimed at promoting sustainability, conservation, and environmental stewardship.

World Earth Day serves as a global reminder of the importance of environmental protection and conservation. It's a day dedicated to raising awareness about pressing environmental issues and promoting sustainable practices. On this day, people around the world come together to participate in activities such as tree planting, clean-up campaigns, and educational events to advocate for a healthier planet. World Earth Day encourages individuals, communities, and governments to take action towards preserving the Earth's natural resources and mitigating the impacts of climate change. It's a time to reflect on our relationship with the environment and to commit to making positive changes for the future of our planet.

TITLE OF THE EVENT: WORLD THALASSEMIA DAY

DESCRIPTIONS:

1. Educating the public about thalassemia, its causes, symptoms, and treatment options to promote early detection and intervention.
2. Promoting premarital and prenatal screening to identify carriers of thalassemia and prevent the transmission of the disease to future generations.
3. Advocating for accessible screening programs, genetic counseling, and comprehensive healthcare services for individuals affected by thalassemia.

World Thalassemia Day is observed annually on May 8th to raise awareness about thalassemia, a genetic blood disorder characterized by abnormal hemoglobin production. This day aims to educate the public about the importance of early detection, diagnosis, treatment, and prevention measures. It also serves as a platform to support individuals and families affected by thalassemia, advocate for better healthcare services, and promote research initiatives towards finding a cure for the disease. World Thalassemia Day encourages global collaboration and solidarity in the fight against thalassemia, striving to improve the quality of life for those living with the condition.

WARANGAL-506 001(T.S.)**

TITLE OF THE EVENT: WORLD BRAIN TUMOR DAY

DESCRIPTIONS:

1. Raise awareness about brain tumors, including their types, symptoms, risk factors, and treatment options.
2. Provide educational resources to the public, healthcare professionals, and policymakers to improve understanding and management of brain tumors.
3. Promote awareness of preventive measures, early detection strategies, and risk-reduction behaviors to lower the incidence of brain tumors.

St. Peter's organized webinar on World Brain Tumor Day, observed on June 8th and it is dedicated to raising awareness about brain tumors and supporting individuals affected by this condition. It serves as an opportunity to educate the public about the signs, symptoms, and treatment options for brain tumors, as well as to advocate for improved research, funding, and access to care.

World Brain Tumor Day aims to reduce stigma, promote early detection, and improve outcomes for individuals living with brain tumors. It underscores the importance of solidarity, empathy, and advocacy in addressing the needs of the brain tumor community and working towards better treatment options and ultimately a cure.

I am excited to announce an upcoming webinar on “**Good Clinical Practices in Clinical Research**” organized by **St. Peter's Institute of Pharmaceutical Sciences** on 12-7- 2021. This webinar aims to provide valuable insights into the principles and implementation of Good Clinical Practices (GCP) in clinical research, emphasizing ethical conduct, data integrity, and participant safety.

Principal
St. Peter's Institute of Pharmaceutical Sciences-
Vidyanagar, Hanamkonda,
WARANGAL-506 001(T.S.)

TITLE OF THE EVENT: WEBINAR ON “GOOD CLINICAL PRACTICES IN CLINICAL RESEARCH”

DESCRIPTIONS:

1. Ensuring that subjects are informed about the risks and benefits of participating in a study, and that their consent is obtained freely and without coercion.
2. Implementing procedures to ensure that data collected during the study are accurate, complete, and verifiable.
3. Adhering to applicable regulatory requirements, such as those set forth by the International Council for Harmonisation of Technical Requirements for Pharmaceuticals for Human Use (ICH) and local regulatory authorities.

St Peter's organized a webinar on “Good clinical practice in clinical research” by authorised speakers. Good Clinical Practice (GCP) is a set of internationally recognized ethical and scientific quality standards that ensure the design, conduct, recording, and reporting of clinical trials are conducted in a manner that protects the rights, safety, and well-being of trial subjects and ensures the credibility and integrity of the data generated.

Vidyanagar, Hanamkonda,
WARANGAL-506 001(T.S.)

TITLE OF THE EVENT: NATIONAL WEBINAR ON “MEDICINAL HERBS – A NATURAL RESTORATION ELEMENTS IN THE HEALTHCARE SYSTEM “

DESCRIPTIONS:

1. To increase awareness among healthcare professionals, researchers, and the general public about the therapeutic potential and benefits of medicinal herbs in restoring and maintaining health.
2. To provide participants with an in-depth understanding of the diverse range of medicinal herbs, their historical significance, traditional uses, and emerging scientific evidence supporting their efficacy.
3. To discuss the regulatory frameworks governing the production, marketing, and use of medicinal herbs, including quality control standards, safety regulations, and labeling requirements.

Medicinal herbs have been an integral part of traditional medicine systems for centuries, offering natural remedies for various health conditions. In recent years, there has been a resurgence of interest in medicinal herbs due to their potential therapeutic benefits and minimal side effects. This webinar seeks to delve into the rich diversity of medicinal herbs and their applications in modern healthcare.

Understanding the pharmacological properties and therapeutic potential of various medicinal herbs, including their anti-inflammatory, antioxidant, and immunomodulatory effects.

We are pleased to announce an upcoming webinar titled “**Clinical Pharmacokinetics and Technical Approaches,**” organized by **St. Peter's Institute of Pharmaceutical Sciences on 27-7-2021.** This webinar aims to delve into the fundamental concepts of clinical pharmacokinetics and explore the technical approaches used in pharmacokinetic studies to optimize drug therapy and patient outcomes.

Principal
Principal
St. Peter's Institute of Pharmaceutical Sciences
Vidyanagar, Hanamkonda,
WARANGAL-506 001(T.S.)

TITLE OF THE EVENT: WEBINAR ON “CLINICAL PHARMACOKINETICS AND TECHNICAL APPROACHES”

DESCRIPTIONS:

1. To provide participants with a comprehensive understanding of pharmacokinetic principles, including drug absorption, distribution, metabolism, and excretion (ADME), and their impact on drug concentrations in the body over time.
2. To illustrate how pharmacokinetic principles can be applied in clinical settings to optimize drug therapy, individualize dosing regimens, and enhance therapeutic outcomes while minimizing adverse effects.
3. To highlight the importance of pharmacokinetic interactions between drugs, including mechanisms of DDIs, strategies for predicting and minimizing interactions, and their clinical implications for drug therapy.

St Peter's organized a webinar on Clinical Pharmacokinetics and Technical Approaches by the speakers and the session held very well. Clinical pharmacokinetics plays a vital role in optimizing drug therapy by understanding how drugs are absorbed, distributed, metabolized, and eliminated in the body. This knowledge allows healthcare professionals to tailor dosing regimens to individual patient characteristics, such as age, weight, renal function, and genetic factors, thereby maximizing therapeutic efficacy and minimizing adverse effects.

Pharmacokinetic principles enable personalized medicine approaches by considering interindividual variability in drug response. By assessing pharmacokinetic parameters, clinicians can identify patients who may require dose adjustments or alternative treatment strategies to achieve therapeutic goals based on their unique pharmacokinetic profiles.

We are excited to announce an upcoming webinar titled “**Management of Non-Communicable Diseases: A Clinical Pharmacist Perspective,**” organized by **St. Peter's Institute of Pharmaceutical Sciences on 12-8-2021**. This webinar aims to explore the critical role of clinical pharmacists in the management of non-communicable diseases (NCDs) and their contribution to improving patient outcomes and healthcare delivery.

Principal
Principal
St. Peter's Institute of Pharmaceutical Sciences
Vidyanagar, Hanamkonda,
WARANGAL-506 001(T.S.)

TITLE OF THE EVENT: WEBINAR ON “MANAGEMENT OF NON-COMMUNICABLE DISEASE – A CLINICAL PHARMACIST PERSPECTIVE “

Descriptions:

1. Provide healthcare professionals, particularly clinical pharmacists, with up-to-date knowledge and skills necessary for effectively managing non-communicable diseases (NCDs) such as diabetes, hypertension, cardiovascular diseases, and cancer.
2. Raise awareness among healthcare providers about the increasing burden of NCDs globally, their risk factors, and the importance of early detection, prevention, and management strategies.
3. Promote the use of evidence-based guidelines, protocols, and best practices in the management of NCDs to ensure quality, safety, and efficacy in patient care.

The management of non-communicable diseases (NCDs) from a clinical pharmacist perspective involves a multifaceted approach aimed at optimizing patient care and outcomes. Clinical pharmacists play a crucial role in various aspects of NCD management, including medication therapy management, patient education, and interdisciplinary collaboration. Clinical pharmacists assess patients' medication regimens, identify potential drug-related problems, and optimize pharmacotherapy to achieve therapeutic goals while minimizing adverse effects and drug interactions

Clinical pharmacists provide patient-centered education and counseling on medication adherence, lifestyle modifications, disease management, and prevention strategies to empower patients to take an active role in their health.

As we approach the auspicious occasion of **Independence Day 15-8-2021**, we are delighted to announce the schedule for our school's celebrations. Independence Day is a significant day in the history of our nation, marking the culmination of our struggles for freedom and the beginning of a new chapter of sovereignty and self-rule.

Principal
St. Peter's Institute of Pharmaceutical Sciences
Vidyanagar, Hanamkonda,
WARANGAL-506 001 (T.S.)

TITLE OF THE EVENT: INDEPENDENCE DAY

DESCRIPTIONS:

1. Independence Day is a day of celebration, marked by patriotic displays, ceremonies, parades, cultural events, and fireworks. It is an opportunity for citizens to express their national pride and unity.
2. Independence Day provides an occasion for citizens to reflect on the significance of freedom, democracy, human rights, and national identity. It is a time to appreciate the values and ideals upon which the nation was founded.
3. Independence Day inspires citizens to uphold the ideals of liberty, justice, equality, and democracy. It encourages people to actively participate in civic life, promote social cohesion, and work towards the betterment of their country.

St Peter's organized virtual Independence Day events, including online flag hoisting ceremonies, patriotic song and speeches by faculty members and students. Various online competitions such as essay writing, poster making, and quiz competitions with themes related to independence and nationalism may be organized to engage students remotely. Students and faculty members can participate in social media campaigns to express their patriotism, share messages of unity, and showcase their creative expressions of nationalism.

Vidyanagar, Hanamkonda,
WARANGAL-506 001 (T.S.)

TITLE OF THE EVENT: WEBINAR ON “INSOLUBLE DRUG DELIVERY CHALLENGES AND ADVANCEMENT IN BIOAVAILABILITY ENHANCEMENT TECHNIQUES”

DESCRIPTIONS:

1. Overcoming challenges related to insoluble drugs by developing innovative delivery systems that enhance drug solubility and dissolution rates, thereby increasing bioavailability and therapeutic efficacy.
2. Developing strategies to enhance the oral absorption of poorly soluble drugs, such as nanoformulations, lipid-based delivery systems, and complexation techniques, to improve their bioavailability and therapeutic outcomes.
3. Developing patient-friendly dosage forms and formulations that improve drug solubility and bioavailability, leading to reduced dosing frequency, improved patient compliance, and better treatment outcomes.

Insoluble drug delivery poses significant challenges in pharmaceutical development, as it limits the bioavailability and therapeutic efficacy of many drugs. However, advancements in bioavailability enhancement techniques have provided innovative solutions to overcome these challenges. Session was discussed on the topic challenges of Insoluble drug delivery and advances in bioavailability enhancement techniques.

WARANGAL-506 001(T.S.)

TITLE OF THE EVENT: NATIONAL WEBINAR ON “NOVEL PROSPECTIVE AND REGULATIONS IN DRUG DELIVERY “

DESCRIPTIONS:

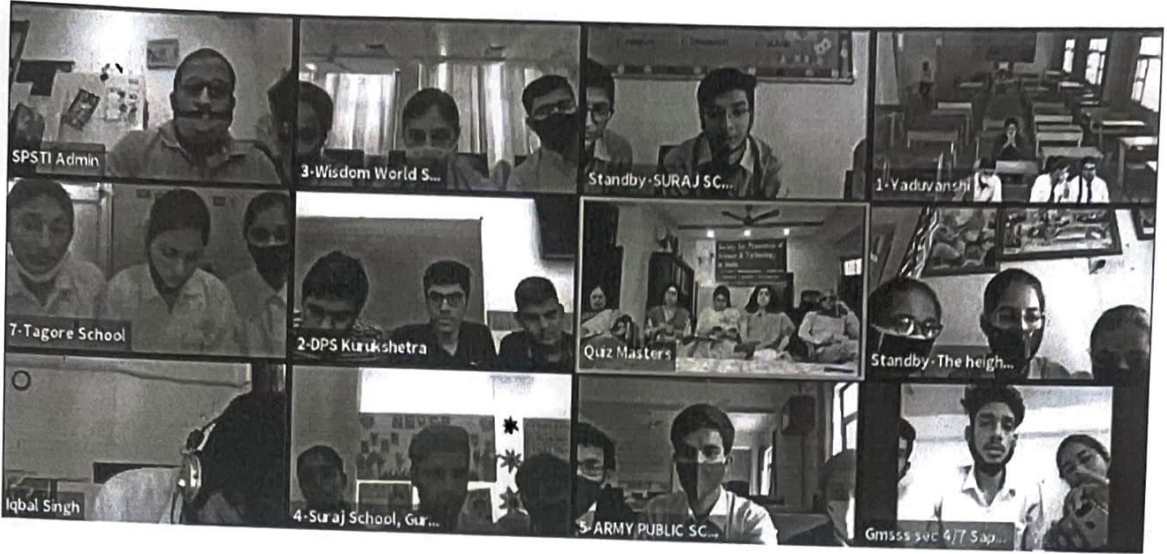

1. Encouraging the development of novel drug delivery systems and technologies to improve drug efficacy, safety, and patient compliance.
2. Developing delivery systems that precisely target specific tissues or cells, maximizing drug concentration at the site of action while minimizing systemic exposure.
3. Designing formulations that release drugs in a sustained or controlled manner over an extended period, ensuring prolonged therapeutic effects and reducing dosing frequency.

Novel perspectives and regulations in drug delivery encompass a wide range of innovative approaches and regulatory considerations aimed at improving therapeutic outcomes and ensuring patient safety. From a perspective standpoint, advancements in drug delivery focus on developing targeted delivery systems, controlled-release formulations, and enhancing bioavailability to optimize drug efficacy and minimize side effects. These innovations include nanotechnology-based delivery systems, implantable devices, and gene therapy vectors, among others. Additionally, there's an emphasis on patient convenience through the development of user-friendly dosage forms that enhance compliance.

TITLE OF THE EVENT: WEBINAR ON “OVERVIEW OF PHARMACEUTICAL CARE CONCEPTS MEDICATION ERROR”

DESCRIPTIONS:

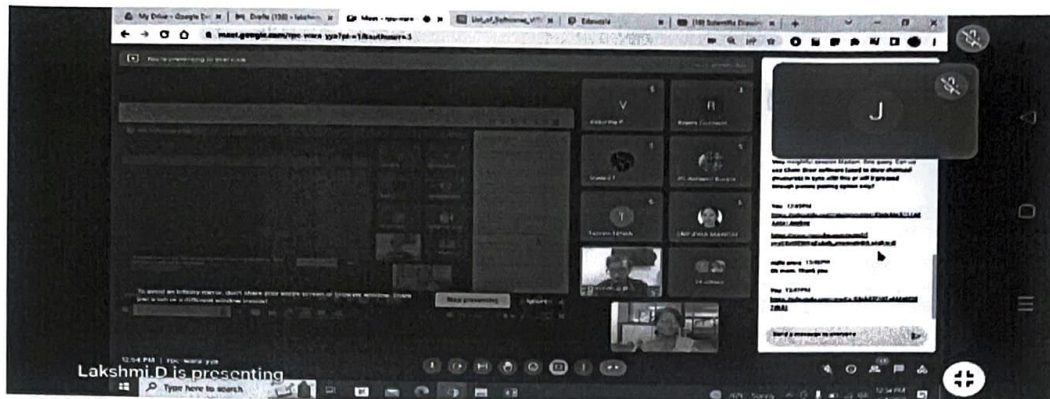

1. Providing a clear understanding of what constitutes a medication error, including the various types such as prescribing errors, administration errors, and dispensing errors.
2. Identifying common risk factors and contributing factors associated with medication errors, such as look-alike/sound-alike medications, complex medication regimens, and inadequate communication among healthcare providers.
3. Educating healthcare professionals on strategies for detecting medication errors, such as implementing double-check systems, utilizing technology solutions, and encouraging open communication among team members. Emphasizing the importance of reporting errors to appropriate channels for analysis and prevention.

Medication errors refer to any preventable event that may cause or lead to inappropriate medication use or patient harm. These errors can occur at any stage of the medication use process, including prescribing, dispensing, administering, and monitoring. Medication errors can arise from various causes and contributing factors, such as miscommunication, inadequate training, system failures, look-alike/sound-alike medications, illegible prescriptions, and patient-related factors like non-adherence or misunderstanding of instructions.

Numerous strategies can help prevent medication errors, including standardized prescribing practices, medication reconciliation processes, barcode medication administration systems, double-checking procedures, patient education, and the use of technology solutions like electronic prescribing systems.

TITLE OF THE EVENT: NATIONAL PHARMACY WEEK

DESCRIPTIONS:

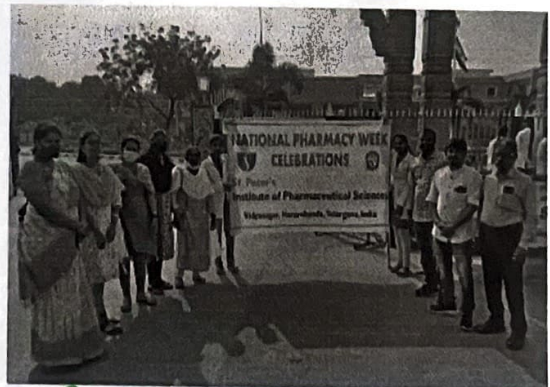

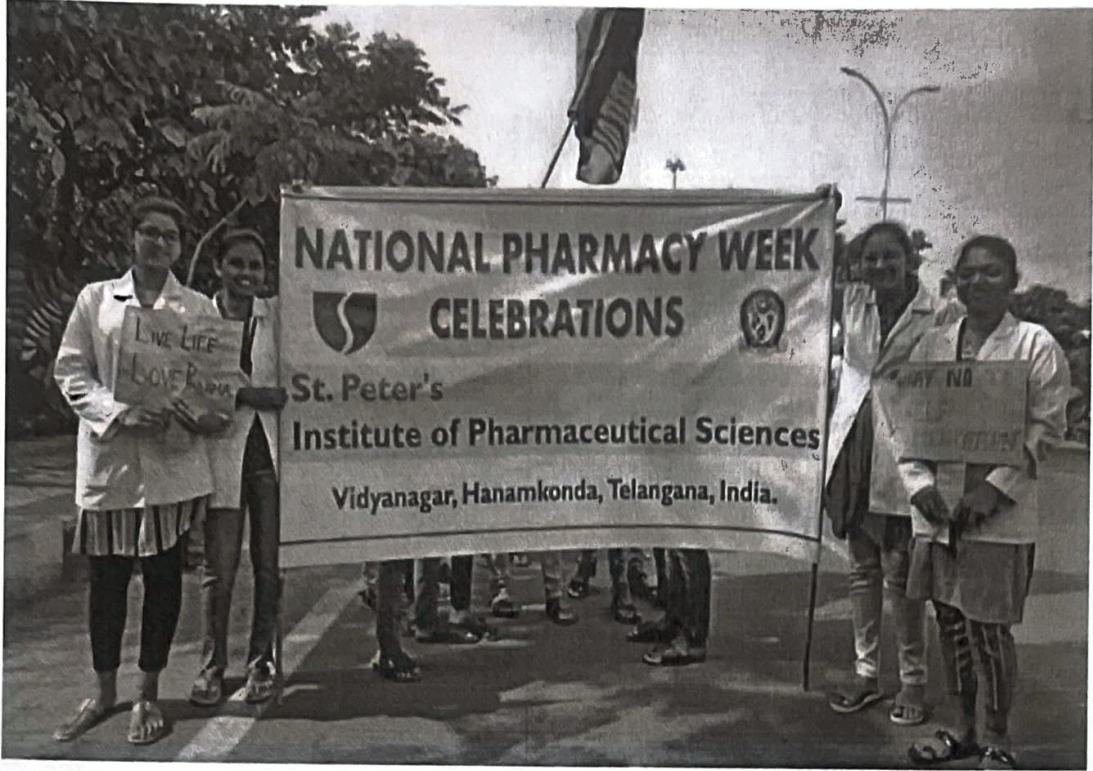

1. To acknowledge the essential role of pharmacists and pharmacy technicians in providing safe and effective medication therapy, improving patient outcomes, and promoting public health.
2. To raise awareness among the public, policymakers, and healthcare professionals about the vital services provided by pharmacists, including medication dispensing, counseling, medication therapy management, and preventive healthcare services.
3. To promote education and public outreach activities aimed at increasing understanding of medication safety, adherence, and the importance of pharmacist involvement in patient care.

National Pharmacy Week is an annual event celebrated to recognize and appreciate the contributions of pharmacists and pharmacy technicians to healthcare. It typically takes place during the first full week of October in many countries. During National Pharmacy Week, various activities are organized to raise awareness about the important role of pharmacists in medication management, patient counseling, and public health. These activities may include educational seminars, health screenings, community outreach programs, and recognition events honoring pharmacists and pharmacy technicians for their dedication and professionalism. National Pharmacy Week serves as an opportunity to highlight the value of pharmacy practice, promote medication safety and adherence, and advocate for policies that support the profession and improve patient care.

TITLE OF THE EVENT: WORLD AIDS DAY

DESCRIPTIONS:

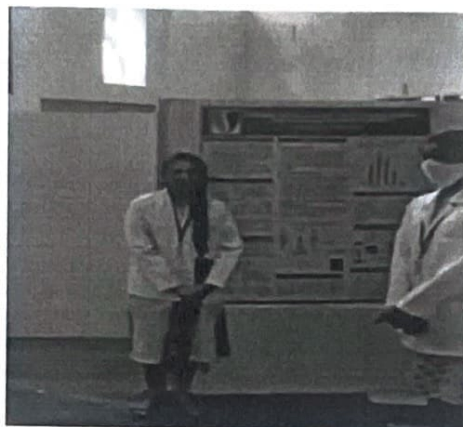

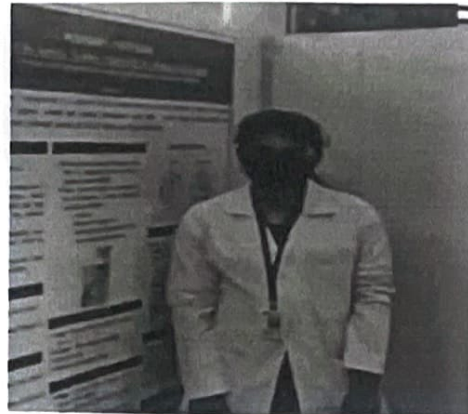

The Descriptions of World AIDS Day typically include raising awareness about HIV/AIDS, combating stigma and discrimination associated with the disease, supporting those living with HIV/AIDS, remembering those who have died from AIDS-related illnesses, and advocating for increased funding and research towards prevention, treatment, and a cure for HIV/AIDS.

St Peter's conducted poster presentations on World AIDS Day, observed on December 1st each year, is dedicated to raising awareness of the AIDS pandemic caused by the spread of HIV infection and mourning those who have died of the disease. It also serves to show support for people living with HIV/AIDS and to commemorate progress made in the global fight against the epidemic. Students from various classes have been actively participated in poster presentations.

TITLE OF THE EVENT: GRADUATION DAY

DESCRIPTIONS:

1. To recognize the hard work, dedication, and academic accomplishments of graduates.
2. To mark the end of a significant chapter in the graduates' lives and to celebrate their transition to the next phase, whether it be further education, employment, or other endeavors.
3. To inspire graduates to pursue their goals and aspirations with confidence and determination as they enter the next stage of their lives.

Graduation day is a significant event that marks the culmination of years of hard work and academic achievement for students. It typically involves a formal ceremony where graduates receive their diplomas or degrees, often accompanied by speeches, awards, and performances. Family and friends gather to celebrate the accomplishments of the graduates and to offer their support and congratulations. Graduation day serves as a memorable occasion for students to reflect on their educational journey, celebrate their successes, and look forward to new opportunities and challenges in the future.
